

2021 DISBURSEMENT SCHEDULE

[2 January 2021 – 11 June 2021]

Emergency road works in full swing...

Honourable Felix Mhona (MP)
Minister of Transport and Infrastructural Development

The provision of road transport infrastructure in Zimbabwe over the past two decades has faced several challenges that include inadequate funding, natural disasters, and poor maintenance and rehabilitation.

Most of our surfaced roads have outlived their useful lifespan and the situation was further worsened by the heavy rains that Zimbabwe received during the just ended rain season. His Excellency, the President, Cde ED Mnangagwa in February 2021 declared all roads a state of disaster which was followed by the launch of the Emergency Road Rehabilitation Programme 2 (ERRP). ZINARA as the road fund manager was tasked to raise US\$400 million together with Treasury to rehabilitate the country's road network.

According to the timelines set for this year, 840 kilometres of roads across the country will be rehabilitated and reconstructed, while 8,340 kilometres will be re-gravelled with 17,093 kilometres of road network set to be regraded. The Government will reseal 1,290 kilometres of roads, reconstruct 427 drainage structures and work on 24,830 kilometres of erosion works and drains across the country.

As of 4 June 2021, the program had seen 23.6 kilometres rehabilitated and 12 kilometres resealed. 421 kilometres have been re-gravelled, while 2,947 kilometres have been graded. 63 drainage structures have been constructed or repaired across all Road Authorities and 27 washaways reclaimed. A total length of 1,232 kilometres of drains has been attended and 2,344 kilometres of verge clearing has been achieved. Potholes have been patched on a cumulative 739.6 kilometres. The work achieved so far under ERRP2 is pleasing and Government is determined to deliver a world-class road network by 2030.

One flagship project being implemented under the Second Republic is the refurbishment of the Harare-Beitbridge highway. We are refurbishing the road using local resources and so far, more than 200 kilometres have been opened to traffic and other stretches are going to be opened soon.

I therefore encourage ZINARA to continue mobilizing funds for capital projects of this nature in line with Vision 2030. It is no longer business as usual and as the Government we commend ZINARA efforts in their rebranding efforts and starting on an innovative journey as they come up with smart ways of collecting road user fees for sustainable road development.

ZINARA's rebranding journey...

Ms. Lizwe Bunu
Acting Board Chairperson

The Zimbabwe National Road Administration (ZINARA) has embarked on a rebranding journey as we seek to align the organization to its statutory mandate of fixing, collecting, and disbursing road user fees to Road Authorities. As the ZINARA Board of Directors, we believe that aligning ZINARA to its legislative mandate is key to the attainment of the targets set in the National Development Strategy 1 in terms of infrastructural development. However, we cannot achieve this task without addressing historical issues highlighted in the Grant Thornton audit report of 2018. Several recommendations were made to ensure that ZINARA operates professionally, and I am happy to inform the nation that most of the issues raised in that report have been resolved. Going forward, we are building a professional ZINARA with robust systems that respect good corporate governance.

As part of the new culture at ZINARA, we are going to be publishing all disbursements to Road Authorities at regular intervals. ZINARA is collecting public funds and as such we believe that it must be accountable to the same public by way of publishing how it is disbursing the collected road user fees. This is a process that will culminate in a transparent and improved road fund that contributes towards sustainable road rehabilitation.

In terms of disbursements, I am also pleased to announce that ZINARA is now collecting efficiently and thus well-funded and able to disburse on time once all the necessary requests and acquittals are received from Road Authorities.

2021 DISBURSEMENTS [2 January 2021 – 11 June 2021]

PROVINCE: Bulawayo Metropolitan	
Road Authority	Disbursements
City of Bulawayo	35,001,644.54
TOTAL	35,001,644.54

PROVINCE: Harare Metropolitan	
Road Authority	Disbursements
